N.C. Depart. of Environmental Health
and Natural Resources
Winston-Salem Regional Office
8025 North Point Boulevard
Suite 100
Winston-Salem, NC 27106
Attn: Mr. Thomas Salley

Dear Mr. Salley:

Re: Interstate Trucking, Former Patterson Avenue Winston-Salem, Forsyth Co.

This letter will document the disposition of the Contaminated soil removal during the closure of four underground storage tanks at the above location in Winston-Salem N.C. Please refer to your memo of 02/10/92 to Mr. Bill Horton, BNE Land and Development Company. Those tanks were removed on June 19 and 20, 1991 under the technical supervision of S&EC. Contaminated soil was excavated from around three of the tanks and placed on and covered by plastic per the N.C. Division of Environmental Management requirements. The property owner, BNE Land Development Company, considered several alternatives for disposition of the soil. They decided to transport the contaminated soil to Cunningham Brick Company in Thomasville, N.C. for the thermal remediation. Hauling of the soil began on 08/22/91 and was completed on 08/26/91. A total of 372.9 tons were delivered to Cunningham Brick. A copy of the transportation manifest for each load is attached. Soil and Environmental Consultants monitored the loading operation and hereby certifies that all contaminated soil at the site was hauled to Cunningham Brick Co.

SPECIAL TRANSPORTATION MANIFESTNo. 2762**GENERATOR INFORMATION**Generator: B & E Land Development19 West Hargett St., Suite 512Raleigh, NC 27601Project: Winston-Salem JobPhone: (919) 833-7284Contact: Bill Horton

I certify that the materials being shipped under this special transportation manifest are properly described, classified, packaged, marked, labeled, and are in proper condition for transported in commerce under the applicable regulations of the state, U.S. Department of Transportation, and the U.S. Environmental Protection Agency. I further certify that this material is not a "hazardous waste", and has been delivered to the transporter designated below, for shipment to the treatment of disposal facility as indicated on this manifest document.
